

Chapter Development & Revitalization

The mission of Chapter Development and Revitalization is to help chapters reach their goals. We bring together the talents of Lineage Research, Volunteer Genealogists, Membership Committees and Leadership Training to tailor-make a plan for your chapter. We offer the tools you need to attract new members, retain current members and keep your chapter healthy and vibrant.

Attract new members by being visible:

- Get involved in community events
- Partner with local schools on projects and events
- Submit articles to your local newspaper including chapter pictures
- Schedule a genealogy workshop (available on Zoom)
- Celebrating Commemorative Events
- Giving Community Awards

Inspire your members by spotlighting them:

- Acknowledging those who do the work
- Rotating chapter officers
- Interacting with other chapters
- Schedule regular meetings & keep them brief
- Reaching out to members with a chapter newsletter
- Offering exciting programs that include interaction

Mentor your members by educating them:

- Providing New Member Orientation
- Educating members about the KSDAR/NSDAR websites
- Encourage participation in DAR Training modules
